

# Quick Campus Covid Qs

## Q: When should students wear masks?

At WRA we are following the mask mandate for the State of Ohio. Students should wear masks at all times except:

- When alone in a room
- When showering/brushing teeth
- When exercising
- When outside and more than 6 feet apart from others
- When a faculty member indicates it's OK to do so. Throughout the day we will provide appropriate breaks from the wearing of masks.

## Q: What are the four key elements of WRA's plan to optimize wellness during this time of COVID?

1. Wear a mask
2. Physically distance (more than 6 feet)
3. Wash Hands
4. Wipe down high touch areas

Our extensive COVID-19 protocols can be found at [WRA.net/coronavirus](https://wra.net/coronavirus).

## Q: Can you provide examples of protocols specific to dorms?

In the entrance of every dorm hand sanitizer will be available. We ask individuals to wash hands/use sanitizer upon entry.

Disinfection materials are widely available. Dorm parents will work with students to wipe down surfaces. Joyful room inspections will be commonplace.

In an effort to allow students to safely hydrate, water refill stations will be available and frequently sanitized after use.

While our HVAC systems provide optimal performance we encourage the opening of windows for added circulation of fresh air.

Masks will be frequently laundered. Each student will label his/her/their masks. At the end of each evening

masks worn previously in the day will be collected for laundering. Clean masks will then be provided.

### Q: Are boarding students allowed to go home?

During this time of pandemic we wish to limit potential contraction of disease. For this reason we discourage the coming and going from campus during the first four weeks of school. Allowances are made for medical appointments and extenuating circumstances. Students are not permitted to participate in off-campus athletic competitions or to travel to "COVID" hot spots.

### Q: Are boarding students permitted visitors?

Visitation of dorms is limited to WRA personnel and the residents of that dorm. Exceptions are made for parents/guardians on registration day.

Parents are welcome to visit on campus or spend time with their children in downtown Hudson. We ask that protocols are followed including the wearing of masks, maintaining physical distance, frequent hand washing and the sanitization of high touch surfaces when in public. Please note that no ill individual should visit campus.

### Q: Can students go downtown to Hudson?

Yes. Students are permitted to shop for essential items (food, drug store products, etc.), to dine at restaurants that provide outside seating, to procure take-out food and to enjoy the outdoor spaces of Hudson. Again, we ask that protocols are followed: the wearing of masks, maintaining physical distance, frequent hand washing and the sanitization of high touch surfaces. Standard signout procedures apply.

### Q: Can my day student have friends over or visit their friends' homes?

We ask that each family follow the directives as outlined in WRA's COVID pledge. **No student should be permitted to attend mass gatherings.** We ask that day families follow safe practices, limit engagement to a few individuals, utilize the outdoors as much as possible, practice physical distancing, wear masks, wash hands and sanitize surfaces. At this time boarders are not permitted to go to the homes of day students.

### Q: Remind me... when and where are temperature checks?

During Registration and Orientation days, boarding student temperature checks will be conducted each evening by dorm parents. Day parents will be asked to take their students' temperatures at home. Any student with a temperature over 100.4 must be reported to the WRA Health Center and will not be permitted to engage in activities on campus.

During the first week of classes students will transition to a new protocol for recording wellness. Day students will take their temperatures at home and record their wellness data into an app. At the start of the class, day individual boarders will have temperatures taken as they enter academic buildings. They will then record their own wellness data. Late students can report to the Academic Office for temperature checks.

### Q: Are there fun outdoor spaces for students to hang out?

Yes! We are thrilled to provide physically distanced Adirondack chairs, fire pits and new outdoor seating areas. These will be awesome for catching up with friends and enjoying the fresh air.
